MAINTENANCE  
SERVICES*

WE MOVE THE WORLD

**FLENDER**

ALWAYS CLOSE  
TO THE CUSTOMER.  
FOR MAXIMUM  
SYSTEM AVAILABILITY.

We manage your drive systems throughout their life cycles – from professional installation through to swift corrective maintenance.

[Directly at your premises. Around the world.](#)

# OUR SERVICES AT A GLANCE

## INSTALLATION

Professional assembly of complex drives:

- Gear unit installation and alignment
- Mechanical connection to neighboring components
- Precise assembly for a safe start

## COMMISSIONING

Reliable commissioning for smooth operation:

- Startup of gear unit and drive train
- Exact alignment of all components
- Documentation and functionality check

## INSPECTION

Condition control under real operating conditions:

- Visual and endoscopic inspection
- Appraisal of the technical condition
- Reports that include clear recommendations for action

 **PREVENTIVE  
MAINTENANCE**

Scheduled measures to maintain operational readiness:

- Servicing based on run time and system usage
- Replacement of wear parts
- Prevention of unscheduled downtimes

 **CORRECTIVE  
MAINTENANCE**

Swift troubleshooting in the event of unscheduled outages:

- Error diagnosis and root cause analysis
- Repair or replacement of defective components
- Emergency service available worldwide

 **SPECIAL INVESTIGATION**

Analysis of complex or recurring error patterns:

- More in-depth root cause analysis
- Application of special test procedures
- Support in the event of costly breakdowns

## ADVANTAGES

- Highly flexible services and an excellent cost-benefit ratio thanks to a worldwide network of specially trained personnel
- Extensive product know-how
- Scheduled maintenance downtimes instead of unscheduled production outages
- Optimum machine and system performance
